SBA Loans Long-term Lending, Low Interest Rates.

It's all about flexibility with SBA loans. With terms as long as 25 years, low monthly payments and fixed rate options, your path to business ownership may be just around the corner. It's fast too—getting pre-qualified takes less than 30 minutes through Guidant.

Why SBA?

The bevy of benefits an SBA loan can offer coupled with the fact that an SBA guarantee reduces a lender's risk make this funding method an attractive option for many entrepreneurs.

Who should use SBA loans?

SBA loans work best for entrepreneurs purchasing a franchise or business, who have available collateral and three years of business experience. They are also ideal for those combining multiple funding resources.

What are some of the benefits?

- Longer terms equal lower monthly payments
- Payments are fully amortized (no balloon arrangements)
- Down payments from 10 – 30%
- There are no prepayment penalties on loans under 15 years
- Terms as long as 25 years
- Fixed rate options
- Borrowers can qualify with a lower equity requirement
